The customer charge covers fixed monthly costs regardless of the customers use of service. Examples of fixed cost are preparing bills, leak surveys, locates and other O&M expenses.

PGA stands for Purchased Gas Adjustment and reflects a change in rate due to changes in the cost of purchasing energy from suppliers.

All utility customers must pay a fee to cover the cost of the Public Service Commission and public advocate fees.

Important Information

State taxes and Franchise Fees (not applicable on this bill) are fees and/or taxes that are remitted to the city and/or state.

With the new tiered gas distribution fee, residential customers are charged \$0.5996 per therm on the first 20 therms and \$0.15 for any additional therms used during the billing cycle. Note: commercial customers are billed at the higher rate on the first 40 therms.

GCR stands for Gas Cost Reconciliation and is completed each year to determine the amount under or over collected for the gas cost portion of the customer bill. The total amount is then divided by the projected sales for the next year and factored into the customer's bill monthly. The CR indicated this is a credit.

This fee is a specially allowed charge to recover costs for pipeline upgrades between rates cases.
